SIMPLY STUDIO SESSION

CLOTHING

Clothing is an important part of the Simply Studio session. It needs to be SIMPLE!

If you don't have the items below at home, just ask - I have many items in the studio and may have something in your size.

Women and Girls: Jeans and a white, cream or light pastel cami style tank top or slip dress. A solid neutral color blouse for women may be used as well. Avoid large hair accessories and keep them delicate, or use only to keep hair out of the face.

Men and Boys: Jeans and shirtless. For men who are uncomfortable being photographed shirtless, a snug fitting solid color white, cream or grey sleeveless shirt, tshirt or polo may also be used.

Baby: If you have a baby under 12 months, he or she can wear nothing at all, to show of his/her chubby little body! If you'd like to have them in some kind of clothing, follow the advice above, or you may make use of some baby rompers I have in my studio.

Try to keep everyone in a similar shade. You don't have to match exactly, for example a mix of grey tones works well, a mix of pastels with white, etc. Please do not mix black with white clothing as this can create too much contrast.

BEHAVIOR

Sessions with me are relaxed and fun. I don't expect your kids to be "on their best behavior". Don't feel bad if they aren't being perfect little angels. I don't expect them to be. I want the experience to be fun for everyone so your kids will be happy to return to "Miss Kari's" in the future! The best thing you can do to help is to trust me. Trust that I will get natural expressions from your child. Since children often feel the need to "perform" for their parents, I ask that you give us some space to work without them seeing you. I have a room divider you can hide behind, or you can step into the hallway, unless your young child has separation anxiety, in which case you'll stand in view but please do not coach the children.

A LA CARTE

Choose from the a la carte menu for individual prints, product or digital images. The first price you see is for the product alone, and the second price is what you pay to add the item to any collection. Don't see what you're looking for? Just ask! I have access to hundreds of products not listed here.

DIGITAL IMAGE \$125/55

DESK PRINTS 8X10 OR SMALLER \$30

WALL PORTRAITS	11X14	\$90
	16X20	\$160
